

# COMPOSTING DRY TOILET

# GREEN TOILET – THE PERFECT OFF-GRID TOILET

Green Toilet is an ecological composting dry toilet designed and manufactured in Finland. Green Toilet operates with any water or electricity and is therefore an ideal solution anywhere where there is no drainage or water available.

Green Toilet has a unique double base that works like an under watering flowerpot. The structure ensures odor-free and efficient composting. The service of Green Toilet is based on batch composting with spare containers. When the Green Toilet in use becomes full, it is replaced by an empty spare container.

## *Easy service*

Effortless and fast service with a spare container and sturdy wheels.

## *Made in Finland*

Made to last for decades. Proven use history since the early 90's.

## *For public use*

Unlimited capacity with spare containers.

## *Ecological & low energy*

Reliable operation without electricity or water.

## *Odorless*

Ensured by the unique structure and ventilation.

## *Pleasant to use*

No shoveling or handling of raw toilet waste.

GREEN TOILET

# GREEN TOILET SYSTEM CAN BE ADAPTED TO DIFFERENT NEEDS

With the Green Toilet, you can have a nice and pleasant off-grid toilet anywhere. There are suitable combinations of Green Toilet for indoor and outdoor use. With accessories, Green Toilet system can easily be adapted to different use cases: from family use to large groups in public places like nature parks, golf courses or marinas.
